

Noise Monitoring Services

Standard STC-27 Fence-Mounted Noise Barrier Blankets

Effective Mitigation in:

Construction

Industrial Facilities

Oil & Gas

Mining Sites

Entertainment

Live Events

Our STC-27 acoustical blanket barriers are designed to easily attach to any existing 6 ft or 8 ft construction fence and are designed with construction sound control in mind. The materials we use are high quality, durable, and fire resistant. Our noise barriers have been tested by an independent acoustical laboratory per ASTM E-90 and ASTM E-413 requirements. These blankets have a Sound Transmission Class (STC) rating of 27.

Color Options:

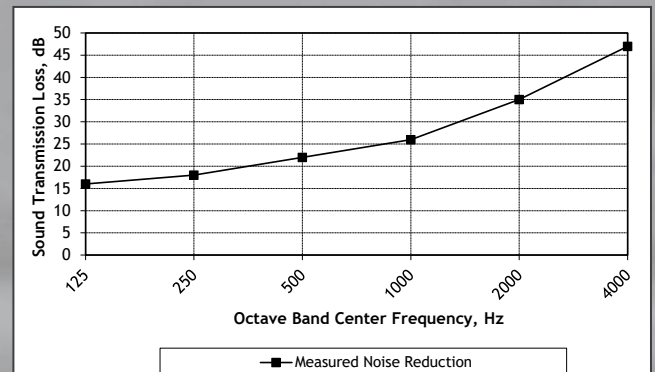

- Green
- Yellow
- Grey
- Black

Size Options:

- 3 ft 3 in (Width) x 6 ft 3 in (Height)
- 3 ft 3 in (Width) x 8 ft 3 in (Height)

Technical Specifications:

- Sound Transmission Class (STC) 27
- 1.2 lb/sq. ft. weight
- UV-resistant, Flammability class B rated outer layer, which encases acoustically absorptive materials.
- Can be hung from any support structure using the grommet inserts.
- Velcro strip to enable effective sealing between blanket panels.
